The following item is considered a STEAM craft. The instructions for this item are extremely simplified, as there is no right/wrong way to put this item together. The purpose of this product is to learn through the process of experimentation, and trial and error.

Instructions:

Challenge kids to create their own version. How far will the plane fly? Will more wings make it fly farther? How does adding extra weight affect the plane's flight?

Try to make the plane fly farther; loop a rubber band around the notch, pull back and watch the plane fly!
