

POM-POM RUG KIT

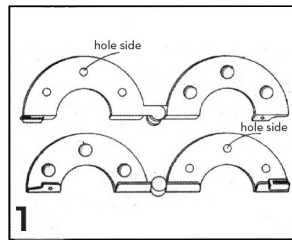

1. DESIGN YOUR RUG
Decide on the design for your rug. Create the daisy rug shown or review the Design Guide on the back of these instructions for other ideas.

2. MAKE YOUR POM-POMS
Follow the step-by-step instructions to create each pom-pom. Use the paper ruler included to measure out your yarn before you start wrapping around the pom-pom maker. Each pom-pom uses 10 yards of yarn. Measure and cut one yard-long piece. Then use that piece as a guide to cut 9 more. Also cut a 8" piece to use to tie the pom-pom together in Step 10.
NOTE: you will need a pair of scissors (not included).

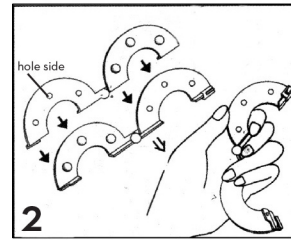

3. PLACE YOUR POM-POMS
Lay out the pom-poms on the mesh rug according to your design.

4. COMPLETE YOUR RUG
Tie the pom-poms onto the mesh. Secure with a knot and cut off the remaining long "tails".
NOTE: Leave this as a last step in case you want to move the pom-poms around before securing your design.

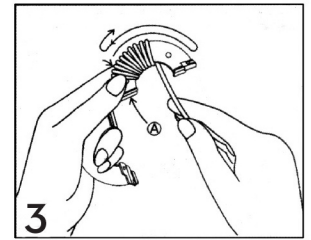

5. ENJOY!
Your plush and poofy pom-pom rug will be a treat for your feet while you brush your teeth or get out of bed.

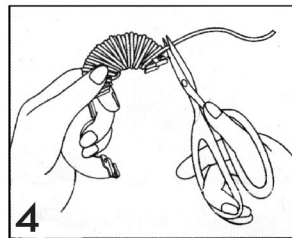

1 Pom-pom maker makes 2" pom-poms.

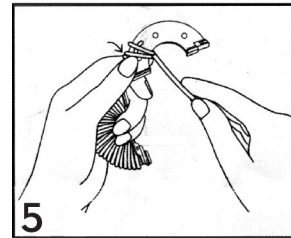

2 Put the two parts together as shown.

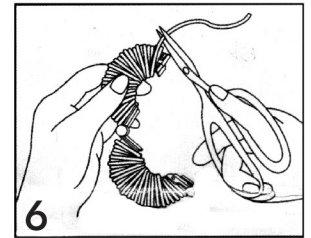

3 Wind the yarn around the semi-circle evenly.

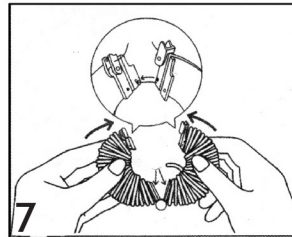

4 Cut extra yarn away of ends after winding.

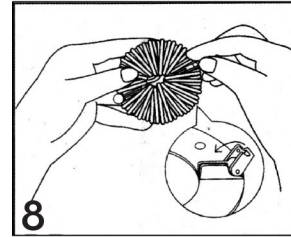

5 Wind in the same way for the other semi-circle.

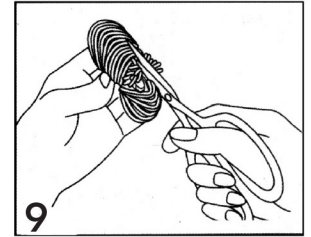

6 Cut extra yarn away of ends after winding.

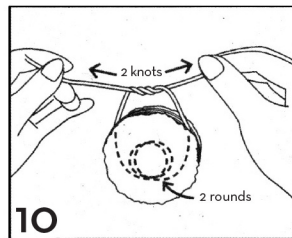

7 Connect the two semi-circles.

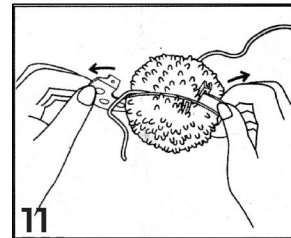

8 Close the pom-pom maker and secure both latches.

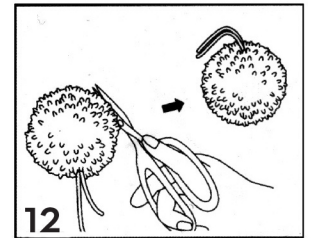

9 Cut the yarn in the middle.

10 Tie it up with an 8" piece of yarn in the middle.

11 Open the device and take off the pom-pom.

12 Trim and shape.

Care and Maintenance: Spot clean after assembly.
