

HOW TO USE ACTION PLATES

Get ready to design your own amazing action heroes! With Action Plates™, you're the artist! Just mix & match plates, then rub to create! You have the tools to draw a hero or villain to suit any adventure your imagination can dream up. Let's get started!

PLACE PLATES IN THE TABLET

Choose plates for your character design. Pick any head, body, and legs you like. Lift the frame and place the plates in the tray of the tablet.

ADD PAPER & RUB WITH CRAYON

Place a piece of paper on top of the plates and close the frame. Hold the frame in place with one hand and use the included rubbing crayon in the crayon holder to rub back and forth over the paper. This creates the outline of the design.

TIP:

Be sure to rub the whole design before opening the frame or moving the paper. You may need to rub over some areas more than once. Try rubbing diagonally to fill in any missed areas.

ADD PATTERNS & COLORS

To add patterns, place a pattern plate in the tray so the pattern faces up. Then color with crayons over the paper. To color without patterns, remove the paper from the tablet and color on a flat surface.

PAPER REFILL

You can use most any standard paper with Action Plates™. It's okay for larger paper to extend past the tablet, just be sure to hold the frame in place with one hand while coloring, so it doesn't move.

TIP:

You can fit multiple designs on larger paper; create a design then slide the paper over and create again.

Product and colors may vary. Product duplication for illustration purposes only. Some designs shown in this guide use additional crayon colors not included in this kit.
