

13622508 Plastic Beaded Snowflake Ornament Craft Kit

1. Take three chenille stems and twist them together at the center. Spread the ends out, creating six even-sized spokes.
2. Thread beads onto each spoke as shown, leaving about 1" to 1.5" empty on each end.
3. Curl five of the spoke ends down to hold the beads in place.
4. To make the hanger, loop the last spoke and tuck the end inside the top bead. Thread the satin cording hanger through the loop and tie a knot to the other end of the cording.
