

# 13811408 Unicorn Pumpkin Decorating Craft Kit

OrientalTrading.com

(800) 875-8480

## Instructions:

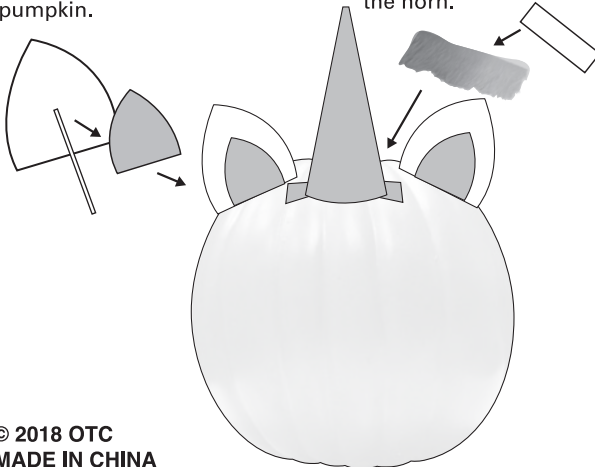

1. Stick one of the double-sided adhesive foam rectangles to the edge of the paper horn piece. Curve the paper to form a cone shape, overlap the edge over the adhesive foam, and press to adhere together.

2. Use the small double-sided adhesive foam rectangles under the bottom flaps of the horn to stick the horn to the top of the pumpkin.

3. Sandwich a pick between the large ear piece and the small adhesive ear piece, then poke the assembled ear into the pumpkin.

4. Use the remaining double-sided adhesive foam strips to secure the fur around the base of the horn.

Adhere remaining pieces and your craft is finished!
