13851903 Beaded Halloween Ring Craft Kit

1. Fold the colored chenille stem in half. Make a loop at the bottom of the folded chenille stem to make the "ring" base (fig. A). Twist and fold the ends together to secure.
2. Fold the other chenille stems in half. Attach the other four chenille stems to the ring base at the folds and twist the ends together. Fan the chenille stems out to make the legs. (fig. B)
3. Thread five beads onto the legs (Note: you may have some beads left over). Fold the ends of each leg twice to secure beads in place.
