

13902965 3D Nativity Ornament Craft Kit

Instructions:

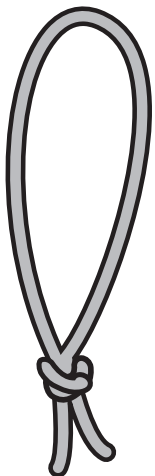

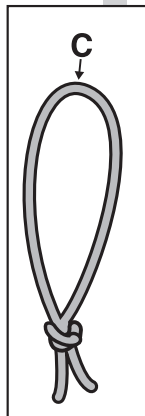

Step 1:

Decorate the panel (shown below) with the star and cloud stickers.

Step 2:

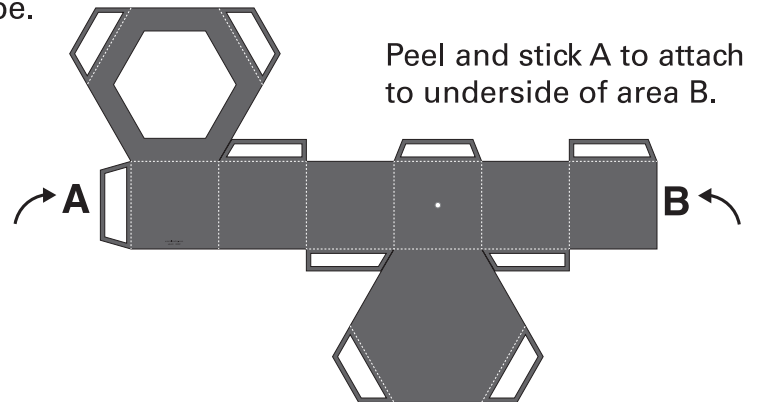

To create the hanger, fold the cording in half and tie a knot at the ends, creating the shape shown below. Then set the cording aside to use in a later step.

Step 3:

To prepare the box for assembly, pre-fold the cardstock along all of the scored fold lines. (Note that the dark blue printing will be the outside of the assembled box.)

Remove the white paper backing strip from flap A, taking care that the adhesive remains on the box. Attach flap A to the underside of panel B, aligning the edge of B with the fold on A. This will form a hexagonal box shape.

Step 4:

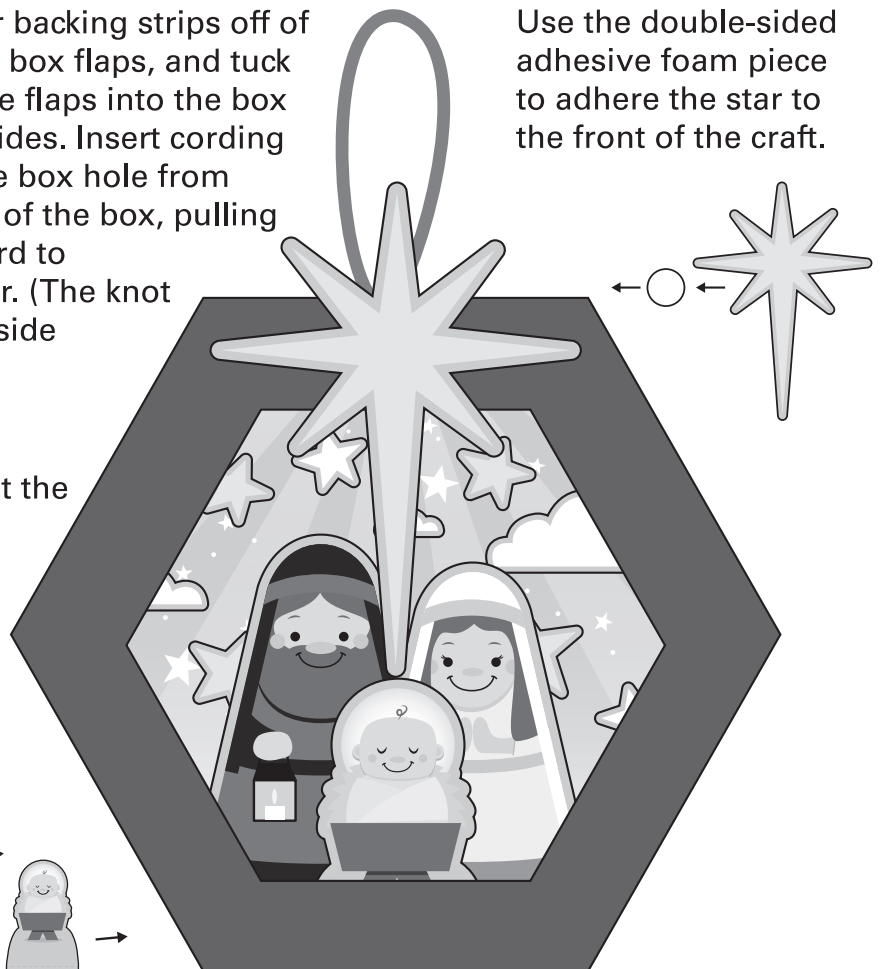

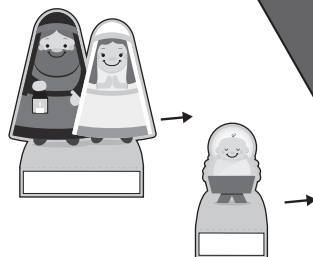

Peel the paper backing strips off of the remaining box flaps, and tuck and adhere the flaps into the box to secure all sides. Insert cording area C into the box hole from inside the top of the box, pulling cording upward to make a hanger. (The knot will remain inside the box.)

Step 6:

Use the double-sided adhesive foam piece to adhere the star to the front of the craft.

Step 5:

Fold the flap at the bottom of the Holy Family pieces, and adhere them inside the ornament.
