

14145204 Galaxy in a Jar Craft Kit

Instructions:

Using the picture as a guide, adhere the pieces together as shown. Use one of the foam circles to attach one end of the clear cording to the inside of the lid. Use the other foam circle and attach the astronaut to the other end of the clear cording. Sandwich the clear cording between the two foam moon pieces.

Place the paper insert inside the jar. Place the Earth into the slot in the foam base. Insert the foam base into the bottom of the jar.

Stick the foam stars to the outside of the jar as shown.
