

14145301 DREAM CATCHER CRAFT WITH CARD

Instructions:

1. Tie the string to the hoop. Use the diagram below to make the web using half hitch knots. Try to space the knots evenly around the hoop. Your first row is attached to the hoop. To create the next row, thread the string through the loops of the first row and pull firmly. Continue looping the thread until you reach the center of the hoop. Tie the string in a knot and trim away the extra string.
2. Fold three of the brown cording pieces in half and attach them to the bottom of the ring as shown.
3. To make the feather pairs, thread pony beads onto each end of the string. Tie one end of the string onto the shaft of one brown feather. Place a small amount of glue (not included) onto the feather shaft and slide the beads onto the shaft as shown in the picture. Tie the other end of the string onto one blue feather. Apply glue to the feather shaft and then slide the beads onto the shaft.
4. Tie the ends of the brown cording into a knot to make the hanger. Loop the hanger onto the top of the blue ring as shown in the picture. Using the last piece of brown cording, attach the circle dream catcher tag.
