

14194114 WRAPPED HEART WREATH CRAFT KIT

Instructions:

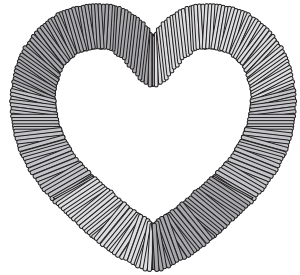

Using the picture as a guide, assemble the craft as shown.

1. Choose a color of satin cording to wrap around the top side of the styrofoam heart. Begin by tying the cording to the heart near the center and wrapping it around the heart so that the styrofoam does not show.

2. Alternating colors, repeat step 1 and continue until the entire shape is wrapped in the satin cording. There is enough cording to create 6 wrapped sections.

3. Using glue (not included) attach the foam shapes to the wrapped heart. After the glue has dried, attach a piece of cording to the back as a hanger.
