

# 14324423 Air Dry Christmas Tree Craft Kit

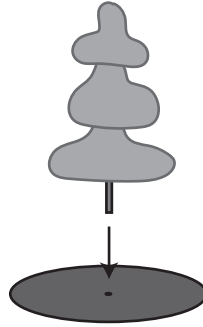

## Instructions:

Using the picture as a guide, adhere the pieces together as shown.

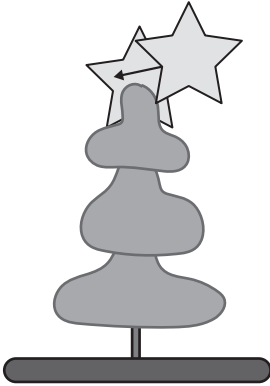

1. Roll the clay into three balls and insert the wooden dowel through the balls, leaving room at the bottom of the dowel. Mold the clay into the form of a tree.

2. Insert the dowel into the hole through the red base for support.

3. Sandwich the tree between the star pieces to create the topper.

4. Adhere the ornaments. Reinforce with glue (not included) for additional support. Allow time for your craft to dry.
