

# 14324476 Simple Chenille New Year's Crown Craft Kit

## Instructions:

1. Bend each of the tinsel stems in half at the center. Then, starting at one end of the black foam crown, thread the ends of a tinsel stem through 2 holes in the crown, creating a triangle shape "peak" as shown below. Twist the ends of each stem up and around the stem in the area above the foam crown to secure. Repeat as desired to create the crown shape.
2. Sandwich the adhesive foam stars together at the top of the stems, and decorate the band with the year numbers and remaining stars.
3. Assemble into a crown, using the tab and slots to adjust the size.
