

14356057 STEM DIY GUITAR CRAFT KIT

Assembly Instructions:

1. Assemble the box (body of the guitar) and decorate as shown or as desired. Reinforce with tape or glue (not included).
2. Insert the craft tube (neck of the guitar) into the top end of the box into the slotted circle with excess points on the outside of the tube. Reinforce with tape or glue (not included) if desired. Wrap with the blue adhesive strip to cover the points. Use the double-sided adhesive tab to attach the head to the end of the guitar. Decorate as shown or as desired.
3. Use the double-sided adhesive strips to attach the dowels (the bridge) at the top and bottom of the front of the box.
4. Stretch the large rubber bands around the box lengthwise to create the guitar strings.
