

14356198 STEM MAKE YOUR OWN VOLCANO CRAFT KIT

Assembly Instructions:

1. Using the tools provided mold the air dry clay into a volcano with a crater in the middle. Allow 24 hours to dry.
2. Pour baking soda (not included) into the crater of the volcano.
3. Using the included pipette, drop an equal amount of vinegar (not included) into the volcano to make it erupt.
