

14384090 Dad to the Bone Motorcycle Craft Kit

Instructions:

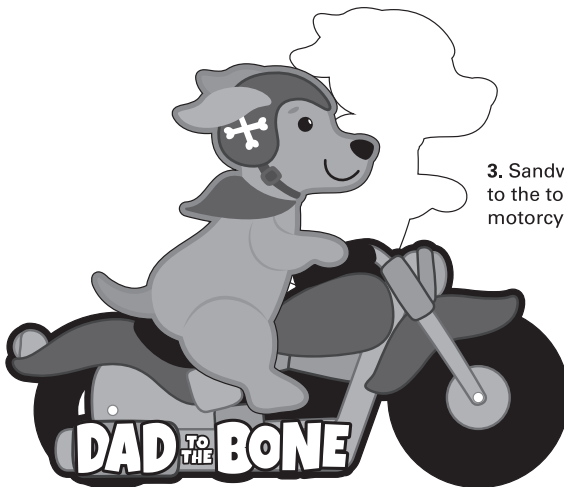

Using the picture as a guide, adhere the pieces together as shown.

1. Adhere the double-sided adhesive foam rectangle to the inside of the motorcycle, line up the matching piece, then sandwich the motorcycle body together.

2. Place the wheel between the two motorcycle pieces. Insert a dowel through the holes to secure the wheel. Repeat step for the remaining wheel.

3. Sandwich the dog to the top of the motorcycle.
