

48/3123 Camp Journal Craft Kit

1. Place the sheets of paper on top of the foam book cover. The end of the twine may be taped or stiffened with white glue to make threading easier. Line up the holes and lace the twine through the top two holes. Tie a knot in the twine adding a drop of glue to secure. Begin to lace the book, making sure to thread the twine through all pieces of paper. Fold the book in half and tighten twine.
2. After threading the last two holes, tie a knot in the twine adding a drop of glue to secure, then trim off the extra twine.
3. To make the frame, glue three of the dowels under the word “Camp”, then glue three dowels on each side as shown. Finish by gluing three dowels across the bottom.
4. Glue the picture inside the frame as shown. Finish by gluing the trees onto the frame.
