STEP 1

NOTE: The longer end of the (A) Base goes towards the front. First, assemble the (B) Support Poles to each other and to the (A) Base as shown, and secure by aligning the quick-connect push buttons into the pre-drilled holes.

STEP 2

NOTE: The speaker on the Function Control Box located on the (C) Torso Frame should be facing front. Assemble the (C) Torso Frame onto the (B) Support Poles as shown, and secure by aligning the quick-connect push buttons into the pre-drilled holes.

STEP 3

Lower the (D) Hip Hoop down over the (C) Torso Frame and attach through the slots located on the sides at the bottom of the (C) Torso Frame as shown. Next, attach the (E) Shoulder Support into the slots located at the top of the (C) Torso Frame as shown. Now, plug the UL Power Adapter into the input receiving jack marked "DC 5.9V" on the Function Control Box.

Note: Do not plug the UL Power Adapter into power outlet until item assembly is completed.

OPTIONAL: If you choose to use the (F) Step Here Try-Me Activation Pad, plug the connector into the input receiving jack marked "TRY ME" on the Function Control Box and set the Step Here pad in front of the character when ready to display.

STEP 4

Lower the (G) Costume down over the (E) Shoulder Support & (C) Torso Frame so that the (G) Costume opens at the back.

STEP 5

Now locate the flat pin connector sensor cable from the (G) Costume to the coordinating cable on the Function Control box on the (C) Torso Frame as shown.

Then, set the (H) Head onto the (C) Torso Frame by sliding the forked-hook into the "neck" slot housing on the (C) Torso Frame, and connect the cables from the (H) Head to the color-coordinated cables on the Function Control box on the (C) Torso Frame as shown.

Now you can secure the hook & loop closures at the back of the (G) Costume.

STEP 6
Slide the (I) Right Arm up through the right sleeve and slide the forked-hook into the right “shoulder” slot housing on the (C) Torso Frame. Set the (J) Right Hand into place by sliding the forked-hook into the “wrist” slot housing on the end of the arm. Now, slide the (K) Left Arm up through the left sleeve and slide the forked-hook into the left “shoulder” slot housing on the (C) Torso Frame as shown.

STEP 7
Assemble three pieces of the (L) Scythe Poles together & set the bottom onto the “scythe housing” at the front of the (A) Base as shown, and slide through the hole of the hand on the end of the (K) Left Arm onto the top of the assembled (L) Scythe Poles as shown. Now assemble the final piece of (L) Scythe Pole on to the assembled (L) Scythe Poles and set the (M) Scythe Top on top as shown. Now, locate the hook & loop closures at the inside of both sleeves of the (G) Costume and secure to the hook & loop closures at both wrists.

STEP 8

Set the (N) Hood up onto the (H) Head and shoulders and secure under the chin and at the back with the hook and loop closures as shown. Wrap the (O) Rope Belt around the top of the (D) Hip Hoop and tie in the front.

OPERATION INSTRUCTIONS:

1. Plug the UL power adapter into a standard power outlet and adjust the settings on the Function Control box to your liking.
2. Lunging Reaper has 3 operation settings which can be found on the main Function Control Box on the (C) Torso Frame:
 - “I” On: This setting allows the item to run continuously.
 - Sensor: This setting allows the item to only be activated when the infra-red sensor is activated. The item will operate for one audio-cycle with each sensor activation.
 - The Infra-red (IR) sensor will activate when someone comes within an 80-degree angle from left-to-right, as well as from above and below.
 - The Infra-red (IR) sensor has a range of up to 2 meters/6.56 feet, and can work in all lighting conditions – bright light to no-light!
 - “O” Off/Try-Me: This setting allows the item to be activated only if the Try-Me is triggered. The item will operate for one audio-cycle with each Try-Me activation.

The Function Control box also includes a Volume Control knob, which allows you to adjust the volume to be as loud or as quiet as needed. Be sure to test the item before finalizing your display so you can set the volume to your liking.

ENJOY YOUR LUNGING REAPER !

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures; Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or experienced radio/TV technician for help.
